8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Yes, however the cash outflow for capitalised exploration and evaluation relates to historic amounts that were settled by agreement with one further payment made in October of €60k These costs are not re-occurring.

Field and technical costs have been reduced to minimum levels whilst there have been travel and operating restrictions due to ongoing COVID-19 impact globally and whilst the final approvals are attained for development. As ongoing work and new proposed work is undertaken, contributions from JV partners at their participating percentage (37% of Selva costs) are to resume.

The Company continues to monitor measures in place to ensure security of assets and conserve cash balances.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company has ongoing support of the Board and major shareholders who have provided funding through unsecured loans, Additional facility of (AU)\$500k was provided in this quarter. AU(\$)480k was drawn on these loans with the balance received early October. The Company plans a more significant fund raising over the coming months to coincide with the anticipated granting of development approval for the Selva project.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, the Company has maintained ongoing measures to conserve cash reserves by managing cost reductions and working capital. This combined with ongoing support of the Board with unsecured loans and the plan to raise further capital in the coming months, the Directors are of the opinion that the entity will be able to continue its operations and meet its business objectives.
