8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Yes, the company expects current levels of expenditure to continue as it progresses activities to obtain the final production concessions for Selva Malvezzi and Teodorico. The final EIA decrees awarded in late March 2021 for both projects now paves the way to progress the next phase in the June 2021 quarter. The Company continues to implement measures so that its activities are undertaken within the constraints of available financial resources.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company has commenced a review of capital raising options and is currently assessing the appropriate strategy to deliver sufficient funds to meet its objectives in a timely manner. The Company has ongoing support of the Board and major shareholders and does not have any reason to believe that its capital raising activities will not be successful.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, the Company expects its existing cash resources and funds anticipated from capital raising activities and ongoing support of the Board and major shareholders, to be sufficient to meet its short and medium-term business objectives. Should sufficient funding not be available, the Company will adjust its discretionary spending accordingly.
