The Board is responsible for establishing a company culture of high ethical, environmental, health and safety standards.

Board Responsibilities

The Board has general responsibility for the oversight, management and performance of the Company. The Board currently consists of four Directors. Due to the size of the Board, matters which are often delegated to committees such as audit, risk and remuneration are encompassed within the normal operations of the Board.

The Board's specific responsibilities include the following:

- set the strategic direction for the Company and monitor its implementation and ongoing development;
- monitor performance of the Company, the Board and management;

- oversee the entity's process for making timely and balanced disclosure of all material information;
- appoint and remove the external auditors;
- evaluate the performance of the Board and identify and appoint new directors to the Board; and
- take responsibility for corporate governance.

Delegation to Senior Management

Other than the matters specifically reserved for the Board, responsibility for the operation and administration of the Company has been delegated to senior management. Internal control processes are in place to allow management to operate within Board approved limits and management cannot commit the Company to additional obligations or expenditure outside of those delegated authorities without Board approval.

Composition of the Board

Election of the Board members is substantially the province of the Shareholders in general meeting.

The current Board of Directors is as follows:

Name	Position	Length of service
Mr Kevin Bailey AM	Chairman	Since 22 April 2016 (as Chairman since 2 May 2022)
Ms Sara Edmonson	Non-executive Director	Since 23 December 2019
Mr Joseph Constable	Non-executive Director	Since 30 November 2021
Ms Katrina O’Leary	Non-executive Director	Since 2 May 2022

The Board is comprised of Chairman and three non-executive directors. Two of the four directors are deemed not to be independent by virtue of either their length of service, their substantial shareholdings in the Company or having held an executive position in the three years prior to serving on the Board (for details of the directors’ shareholdings refer to the Directors Report in the Company’s 2023 Annual Report).

Skills and Experience

The Board has been structured to include directors with a versatile set of skills, expertise and experience to enable the Board to execute its duties and responsibilities for the proper and effective management of the Company. The Board seeks to ensure that its members together have the following combination of skills and experience:

- experience in oil and gas exploration, development and production;
- finance and accounting;
- company strategy and business planning and business and corporate development;
- local and international experience; and
- public company affairs and corporate governance.

The Directors Report in the Company’s 2023 Annual Report contains further details of the experience of each Director and their term of office.

The Company does not have a formal board skills matrix and as such does not comply with Recommendation 2.2. The Board considers that its current composition is appropriate for the activities and size of its operations that the Company is currently undertaking. The Board will consider the skill, knowledge, experience, and independence of the Company’s directors in response to any actual or proposed changes in the Company’s activities or operations. The Board considers that it is in the best interests of the Company for the Board as a whole to determine the criteria for the selection of new directors, based on any perceived “gaps” in the skill set of the Board, as and when a casual vacancy arises.

Independence

The Board is comprised of the Chairman and three non-executive directors. Mr Bailey is deemed not to be independent by virtue his substantial shareholdings in the Company and Ms Edmonson, having held an executive position in the three years prior to appointment to the board is deemed not to be independent. Mr Constable and Ms O’Leary are considered to be independent. (For details of the directors’ shareholdings and length of service and executive positions held refer to the Directors

Report in the Company's 2023 Annual Report).

The Board considers that each director's commitment to the aims and ambition of all shareholder of the Company outweighs any non-independence and each director brings an independent judgement to bear on all Board decisions.

Chairman

Mr Kevin Bailey AM was appointed as Chairman on 2 May 2022. Mr Bailey is not considered independent due to his substantial shareholding in the Company.

The Board has considered whether it would be beneficial to appoint an independent Chairman and has also considered the skills and qualifications of the existing directors and has elected not to adopt Recommendation 2.5 to appoint an independent chair as the board believes the current Board structure is the most appropriate at this time. Where required Mr Bailey excludes himself from any items of business where there may be a conflict.

Director's appointment

When considering the appointment of a new director, the Board conducts an analysis of the candidate's professional and technical experience and expertise, character, standing and reputation in the corporate community. The candidates are required to provide the Board with details of all other professional commitments so that the Board can evaluate whether the candidate has sufficient time to fulfil his or her role as a director and if applicable as a committee member of the Company. The Company also undertakes formal criminal history or bankruptcy checks at the time of appointment.

Where a candidate is standing for election or re-election as a Director, the Company will provide information regarding their biographical details, relevant qualifications, experience and skills they bring to the Board together with details of any other material directorships currently held.

If standing for the first time, the Company would undertake appropriate checks and advise if there were any material adverse information revealed by the checks the Company has performed about the candidate together with any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect his or her capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company and its security holders generally, and a statement to the effect that if the Board considers that the candidate will, if elected, qualify as an independent director.

Where a candidate seeks election or re-election the Board will issue a statement as to whether it supports the election or re-election of the candidate.

Induction program

Procedures for induction of new directors are in place to allow new directors to participate fully and actively in Board decision making at the earliest opportunity.

All directors are offered an induction program appropriate to their experience upon their appointment, so as to familiarise them with matters relating to the business, strategy and any current issues under consideration by the Board. This program consists of written background material on the Company and its operations, scheduled meetings with the Chairman and other senior executives as considered appropriate.

Director education

The Board does not have a formal programme for director education. Throughout the year, the Company Secretary provided directors with on-going information on matters such as corporate governance the Company's Constitution, and ASX Listing Rules. All directors have access to company records and information, and receive regular detailed financial and operational reports from senior management. In particular, Directors are, where appropriate provided with detailed financial, operational and management reports prior to each Board meeting.

The Company Secretary is available to all Directors and may be consulted on on-going issues of corporate governance, the Company's Constitution, and the ASX Listing Rules. In addition, the Chairman and other non-executive Directors consult with each other and the senior executives regularly.

Executive director and non-executive director remuneration

The aggregate remuneration of non-executive directors is approved by security holders. Individual directors' remuneration is determined by the Board within the approved aggregate total.

The directors of Po Valley Energy are:

- not entitled to participate in performance-based remuneration practices unless approved by security holders;
- currently remunerated by means of the payment of cash benefits in the form of directors' fees or alternatively by issue of securities in lieu of cash benefits provided it is approved by security holders; and
- Not entitled to any retirement benefits other than superannuation.

At the beginning of each year, the Board usually approves company and individual performance objectives for senior executives. Performance is evaluated and any performance-based remuneration for senior executives and management is approved following the end of each year.

Performance objectives are a combination of company and individual objectives. Performance objectives were not set for financial year to 31 December 2023 and the review process described above will be re-implemented in 2024 if appropriate.

Remuneration Policy disclosure

The Company's policies relating to the remuneration of Directors and Senior Executives and the level of their remuneration are detailed annually in the Directors' Report contained within the Company's Annual Report and Notes to and forming part of the Financial Statements.

Board Performance Evaluation

The Board does not have a formal process for evaluating its performance but undertakes internal reviews of its composition and suitability for the Company where appropriate. The Board currently does not have any committees.

The Board oversees the performance evaluation of the senior executive and management team. The Board establishes performance objectives comprising a combination of strategic and operational company targets together with some specific individual objectives. The Board exercises its discretion when determining any payment of any incentives having regard to the overall performance of the Company and of the relevant executive during the year.

Agreements with Directors and senior executives

Po Valley Energy ensures that all Directors and senior executives enter into written agreements setting out the terms of their appointment to ensure that they have a clear understanding of their roles and responsibilities and of the Company's expectations of them.

Company Secretary

The Company Secretary reports to the Board, through the chair, on all matters relating to the functioning of the Board, and if and when applicable its committees, and corporate governance.

Verification of periodic reports

Periodic reports are provided on a minimum of a quarterly bases for the Company via the submission of quarterly activities reports and quarterly cash flow reports as required by the ASX. Activities reports are prepared by Management and circulated to the full Board for review and comment to ensure accuracy with the Directors' knowledge of operations during the quarter. Financial data is prepared and sent to the Board for review against Director's knowledge of operations for each quarter before approval for release to the market. No other periodic reports are currently prepared.

Board Committees

Due to the size and stage of development of the Company and the composition of the Board, the Board continues to hold the belief that there are no efficiencies to be gained from delegating responsibilities for audit and risk, remuneration and nomination issues to separate committees. The roles and responsibilities of the Audit & Risk Committee and Remuneration & Nominations Committee continue to be undertaken by the full Board.

Remuneration & Nominations Committee Functions:

The Board as a whole undertakes the process of reviewing the skills base and experience of existing directors to enable identification of skills, knowledge, experience, independence and diversity in new directors and assumes responsibility for the appointment of any new directors, the formulation of any succession plans, and the re-appointment of directors to the Board.

The Board have assumed the key responsibilities of establishing the remuneration for non-executive directors and Senior Executives including the Chief Executive Officer (where applicable), and setting and evaluating performance objectives for the Senior Executives. The role also includes any relevant matters relating to recruitment, retention and termination, and review of the Remuneration Report.

The Board, in setting remuneration levels, is mindful of the level of the base salary component of salaries paid to employees in equivalent positions in comparable companies in the same industry and considers the extent to which the proposed remuneration will motivate Senior Executives to pursue the long-term growth and success of the Company, and weighs this up against the Company's desire not to pay excessive remuneration. The Board also ensures that no individual is directly involved in determining the remuneration they will receive. The Board where and when needed will consult with external consultants and specialists.

The Company does not have in place any schemes for retirement benefits, other than superannuation where applicable, for non-executive directors.

The Board considers that due to the size of the Company and its management structure, the board is currently able to give due consideration to the Company's overall remuneration policies as part of its

regular board meetings. In setting the level and composition of remuneration for directors and senior executives the Board has regard to the performance and financial circumstances of the Company, individual performance and market rates paid for comparable roles in companies of similar size and market section.

Audit Committee functions:

The Board undertakes the role that the Audit committee performed with respect to the following:

- the maintenance of appropriate and reliable financial and management reporting systems;
- reviewing the Company's half-yearly and annual financial statements with respect to the adoption of these statements;

- determining the reliability and appropriateness of accounting policies and financial reporting obligations having regard to any Corporations Act 2001 (Cth), Australian Accounting Standards, ASX requirements and generally accepted accounting principles;
- receiving representation letters from Senior Executives; and
- assessing the effects of any new or proposed accounting practices, principles or developments, disclosure requirements or regulatory changes.

The Board considers that the technical skills, qualifications and experience represented by the current Board members are appropriate for the effective discharge of the Board's responsibilities for oversight of the Company's financial and corporate reporting, systems of internal accounting and control, risk management and external audit.

When applicable the Chief Executive Officer and the Chief Financial Officer of Po Valley Energy report in writing to the Board that:

- consolidated financial statements of Po Valley Energy and its controlled entities for each half year and full financial year present a true and fair view, in all material respects, of the Group's financial condition and operational results and are in accordance with accounting standards; and
- declarations provided in accordance with Section 295A of the Corporations Act 2001 (Cth) are founded on a sound system of risk management and internal control, and that the system is operating effectively.

At 31 December 2023 and at the date of this statement, the Company does not have an appointed Chief Executive Officer or Chief Financial Officer and therefore the Chairman has covered these roles. For the financial statements as at 31 December 2023, the Board has received a declaration in accordance with Recommendation 4.2.

Internal audit function

Due to its size and limited scope of operations, the Company does not currently have an internal audit function. The Board regularly monitors the operational and financial performance of the Company. Management reports to the Board on the effectiveness of the Company's management of its material business risks where appropriate.

External Auditor

The Board is responsible for appointing an external auditor, subject to shareholder approval and the requirements of the Corporations Act 2001 (Cth). The general process of selecting and appointing external auditors is as follows.

The external auditor is expected to manage its audit team members to ensure adequate rotation of staff and must have arrangements in place for the rotation of the audit engagement partner on a regular basis.

The board is responsible for nominating the external auditor. Candidates for external auditor must be able to demonstrate independence from the Company and must have arrangements in place for the rotation of the audit engagement partner on a regular basis. The board where appropriate reviews the performance of the external auditor annually and meets with the external auditor at least twice per year to review the adequacy of the existing external audit arrangements.
